Please provide your response below:

Hello;

I did not have any down payment money and this made it possible to buy a home.

I am very grateful for this program as I am single and on a tight budget making it difficult to save money for a down payment.

I now can stop throwing my hard earned money into ownership and not a rent payment.

This meant my dream would become a reality. Thank you very much

The assistance you provided for us ment the world to us with out it we would not have been able to buy our first new home and start a new begining, our family is very greatful for this opprotunity. we didn't have other options for down payment and we did look at you and one other and yours was the better options and we found you threw our financing agency. I think the only way you could improve your program would be to try to get the message out to other home buyers about your program.

This down payment assistance was the difference of owning or not owning for me. It meant the world to me and gave me hope to own my own home and stop renting. I did not look further when I learned of this program and I had no other options for a down payment, my mortgage man found this program. Again very grateful for this assistance.
