This program provides lenders a down payment assistance program that we can use in most states instead of having to learn and use 50 unique state specific lending programs. Chenoa's forgivable second is a abundant lending feature that makes the program more attractive than many state specific options. I personally have helped several families get into their first home with this program; families that would otherwise had to continue renting. Please reconsider allowing the program to continue.

This program is important to every single borrower it helps. We have not used this product on a single borrower who not only NEEDED it but DESERVED it.

Removing this program would be a horrible outcome for many many people hoping to purchase a home.

This program has helped thousands of borrowers obtain a home. If this program was no longer available, it would affect generations to come.
