My client base is mostly hard working FHA minority buyers with credit scores in the mid 600's that would love to buy a home, but cannot save up the money to buy because they do not make a lot of money and their other financial responsibilities make it impossible to save. CHENOA gives these folks a chance to own a part of the American Dream and feel like they belong in our society. Many of my clients are single women with Children. The other choice in Georgia is the Georgia dream program or a few local programs that offer down payment assistance they is not forgivable and limit the DTI so severely that the client cannot find a home in the price point they qualify in. Please keep this program alive so that we can continue to help people live the American Dream.

Thank you
