Victor T

Weymouth, MA

I really appreciate the Chenoa fund because my wife and myself would not own our home without the down payment assistance we received. Owning our home has help stabilize our family: previously we were renting for 18 years and constantly moving to find more affordable housing. After deciding that we could no longer afford to live in MA we were planning to relocate to a more affordable housing market. With the encouragement and support from some amazing friends and divine intervention we decided to stay in MA and attempt to purchase a home. Then we heard about the Chenoa fund and all our dreams came true: we found a lovely home, were approved for a mortgage loan and down payment assistance provided by the Chenoa fund and closed on our house. Our monthly mortgage including taxes and fees equals the rent we were paying for many years. We love our home and are happy to pay our mortgage each month while we build equity in home. We extend our deepest gratitude to the folks at the Chenoa fund! We recently shared our story with a family member and they applied for and received down payment assistance from the Chenoa fund and recently moved into their new home.
