Home Ownership, it's the American Dream! The Chenoa Fund program is a godsend for families in Northeast Tennessee and Southwest Virginia trying to obtain their piece of the American Dream but have been held back by a lack of a down payment. Because of the Chenoa Fund I have been able to provide financing and Home Ownership to a Single Widowed Mother with 2 children who's husband was killed 2 years ago a home in a safe area, with a backyard for her children to play in instead of them playing in a parking lot at apartment complex. I have been able to provide financing and Home Ownership to a first time homeowner who was working 2 jobs , had great credit but just lacked his down payment funds. I have been able to provide financing and Home Ownership to a first time homeowner minority couple with 2 kids who were buying their 1st home. This is a great program that affords individuals and families a chance to own their American Dream.

This is such a valuable product to offer to customers who may not fit the mold of other 100% financing options due to previous homeownership or too much household income. There are numerous people who have a higher household income but just do not have the means to be able to save for a down payment because of their family size, etc. They should be able to purchase as well if they meet the FHA guidelines and this program is designed to help those in that situation.

I stand in agreement with CBCMA that the due process and technical procedures within the FHA when were violated in creating the Mortgagee Letter. I also agree with CBCMA is protected under existing laws and charters of sovereignty to operate in its Down Payment Assistance Program to serve underserved people groups to obtain affordable housing. Until bipartisan data can be properly analyzed by the industry, ML2019-06 should be suspended.

The Chenoa Fund Program was a light in the darkness for so many low-income home buyers. Many do not earn enough to save 3.5% down with the housing market at such a high-value level in our area. These people are already paying more than the payment, they would have in rent. This program is good for the people and the economy.

Please keep it going at least until housing prices move down.

Chenoa is very important and needed for borrowers who cannot save up for a down payment. Average families barely have money left over after paying bills and day to day family expenses, much less to be able to save up 3.5% on a home purchase. If it weren't for Chenoa many families would still be renting a home.

This program has helped many renters become homeowners. It is one of the only programs available to help families that are above the area median income that are not able to save up for a down payment

This fund allows Borrowers to purchase FHA with a fair interest rate with a lower score. Low score is not always indicative of credit risk and I believe this program allows for those Borrowers to be counted.
