HUD Certification Label/Tag CLG 6.2.8	<p>The Federal Manufactured Home Construction and Safety Standards require manufactured homes have a HUD Certification Label/Tag (also known as a HUD Seal or HUD Label) affixed to the exterior of the property. The HUD Tag is an aluminum plate, approximately 2 in. by 4 in, that is permanently attached to each transportable section of the manufactured home in a manner that renders it difficult to remove without defacing it. The label number is etched or stamped with a 3-letter designation that identifies the production inspection agency. Each HUD Tag must be marked with a 6-digit number furnished by a label supplier. Tag numbers are not required to be sequential on a multi-section manufactured home. The HUD Tag must be located at the tail-light end of each transportable section of the manufactured home approximately one foot up from the floor and one foot in from the roadside, or as near that location on a permanent part of the exterior of the manufactured home unit as practicable. The roadside is the right side of the manufactured home when one views the manufactured home from the tow bar end of the manufactured home. Appraisal report must include the appraiser’s certification that the HUD Tag is affixed to the exterior or that the HUD Tag is missing. If the HUD Tag is missing, the appraiser should either reject the property or notify the lender and condition the appraisal for documentation verifying HUD labels were issued for the manufactured home. For a fee, a HUD Tag Letter of Verification can be obtained from the Institute for Building Technology and Safety (IBTS) and must be included in the file submitted to HUD. The following website provides details regarding the cost and procedures for obtaining a HUD Tag Letter of Verification: http://www.ibts.org/services/services-in-the-public-good/cert-label-verification.html Note: Either the HUD tag or the HUD Tag Letter of Verification must be included in the loan file.</p>
Structural Engineering Report CLG 6.2.11	<p>A Structural Engineering Report is required—see HUD Manual for details. The following is an excerpt from the HUD manual: “For Manufactured Housing, the appraisal must be conditioned upon the certification of an engineer or architect that the foundation is in compliance with the permanent Foundations Guide for Manufactured Housing.” Note that all correspondent lenders are fully delegated and are subject to reps/warrants. Lenders in pre-purchase review will be expected to meet all FHA guidelines before CBC Mortgage Agency purchases the loan.</p>
